

FLORENCE KRISTIN LEHNERT

UX RESEARCHER & DESIGNER

22-12-1985

Lebach, Germany

ABOUT ME

The integration of human and technical aspects has drawn a major thread through my study and working life. In particular, I am interested in the cognitive functioning of the human mind to encounter their needs, wishes and limitations regarding their interaction with the environment. In previous jobs and during my current work as a candidate of the User System Interaction Program at the TU/e, I learnt how to translate those needs into innovative design solutions such as mobile applications and technological systems.

LANGUAGES

German, English, Dutch, French

EDUCATION

Professional Doctorate
in Engineering (PDEng)
User System Interaction
2016-Present | TU/e

UTQ | Teaching Qualification
2015-16 | University of Twente

Master of Science | Human Factors &
Engineering Psychology
2012-14 | University of Twente

Minor | Art & Crossmedia
2010-11 | University of Twente

Bachelor of Science | Psychology
2008-12 | University of Twente

WORK EXPERIENCE

UX Researcher | Industry &
Government Projects
2016-Present | TU/e

Guest Lecturer | UCD in a nutshell
2016-Present | University of Twente

Founder | UX-Factor Foundation
2015- Present | Enschede, NL

Internship Coordinator &
Assistant Teacher
2014-16 | University of Twente

Internship | Apollo Vredestein B.V.
2013-14 | Enschede, NL

SKILLS

PERSONAL

Team Player
Analytical
Creative Spirit
Communicative
Independent
Curious
Tolerant

PROFESSIONAL

Data Analysis
Agile
Wireframing
Scientific Writing
User Research
Prototyping
Presenting

PARTICIPATIONS

CuriousU Summer School, 2015, NL
- Arranging exchange for Indonesian students from Binus University, Jakarta.
- Workshop 'The Human Factor in a Smart Energy City'.

CHluXiD conference, 2015, Indonesia
Participant at several workshops

UXCamp NL, 2014
Workshop 'Card sorting: Mapping an Usability Expert.'

RELEVANT UNIVERSITY COURSES

DEVELOPMENT

- Programming for psychologists, Bachelor Psychology
- Human-Computer Interaction, Master Psychology
- Creative Programming, PDEng User System Interaction
- Agile, PDEng User System Interaction
- Information visualization & HTML, PDEng User System Interaction

DESIGN

- Sketching for CreaTe, Minor program, Industrial Design
- Introduction to UCD, PDEng User System Interaction
- Mobile Interaction Design, PDEng User System Interaction
- Tangible Embodied Interaction, PDEng User System Interaction
- Prototyping Interactivity, PDEng User System Interaction

RESEARCH

- Qualitative research in psychology, Bachelor Psychology
- Statistics 1, 2, 3 and Data Collection for Psychology, Bachelor Psychology
- Research Methods in HFE, Master Psychology
- Human Error, Master Psychology
- Cognitive Psychology, PDEng User System Interaction
- User Testing, PDEng User System Interaction
- Crowdsourcing, PDEng User System Interaction
- Design for Research, PDEng User System Interaction
- Data analytics, PDEng User System Interaction
- Task analysis, PDEng User System Interaction
